Salt Lake City & County Continuum of Care
June 25, 2021

Notice: Request for APR Data for TH and PH Project Renewal Applications in the FY2021 HUD CoC Competition

While we do not have an updated timeline from HUD about the release of the FY2021 Continuum of Care Program NOFA we intend to begin the process of reviewing all renewal programs.

Programs that will be seeking renewal funding for Transitional Housing and/or Permanent Housing (including Rapid Re-Housing) Projects must submit APR data to Tarra McFadden by no later than July 9, 2021 at 5 pm.

This data will be used to complete the Need and Performance sections of the application (to be released) and should be generated from HMIS or your Comparable Database.

1. This year, we are reviewing multi-year performance. Using HMIS APR data, renewal TH and PH renewals data will reference the reporting period 10/1/18-9/30/19 and separate report for 10/1/19-9/30/20.
2. Projects that have consolidated in recent competitions should produce an APR for the combined programs rather than individual program reports.

The Collaborative Applicant staff will work to analyze the data and complete the calculations necessary for the application and evaluation. We will present the data for your review and confirmation prior to using it as part of the application process. We hope this will streamline the review of the Need and Performance sections and make completing the application easier for grantees.

To complete this task, please follow the instructions on how to “Test Run a Report” from the Sage CoC APR Guidebook for CoC Grant-Funded Programs.

Please reach out if you have any questions.

Thanks,

Tarra McFadden
