

COORDINATED ENTRY

END UTAH
HOMELESSNESS
Salt Lake Valley

Coordinated Entry works to effectively connect people to interventions that will rapidly end their homelessness. Coordinated Entry is a standardized process for connecting people who are at risk of or experiencing homelessness to the resources available to the community. The objective of Coordinated Entry is to ensure that people who are at risk of or experiencing homelessness have streamlined access to available assistance and receive timely referrals to the interventions that are most appropriate to meet their needs.
