3. How will the requested funds improve or maintain the CoC's ability to evaluate the outcome of CoC and ESG projects?

Salt Lake County government currently administers and monitors ESG projects in the same geographic area served by the Salt Lake County Continuum of Care. This structure benefits the Continuum by encouraging coordination between ESG and CoC projects and ensures more efficient use of funds. The CoC has access to the expertise, resources, and innovation of Salt Lake County government regarding evaluation of data and projects. Building upon existing procedures, monitoring activities will be used to inform strategy, help grantees understand their current data and performance measures, and improve outcomes. Technical assistance will be available to help new programs and to strengthen existing programs. Similar coordination occurs with Salt Lake City and the State of Utah for CoC and ESG grantees within the Continuum. Policies and procedures governing these programs have been developed collaboratively, and where possible monitoring schedules are coordinated. Participation in the Utah Homeless Network provides further opportunities for
coordination. Planning staff participate in project evaluation and State funding decisions which includes ESG funded projects.
