Date of PIT Count: 1/25/2023

Population: Sheltered and Unsheltered Count

Notes

ES - We have one 18-year-old who is in the same household as a 54-year-old. They are an adult age 18-24 in a household without children in emergency shelter, but are not an unaccompanied youth.

US - There is a household consisting of one 24-year-old that is residing in a house with a total of six people.

US - There is a household consisting of one 20-year-old that is residing in a house with a total of two people in which there is an adult over the age of 24 in the family.

US - As part of the missing age range calculation, it was established that the CoCs would administer an extrapolation formula to determine appropriate age off of 33 missing ages. Using this calculation, three of the missing 33 age ranges fell into the 18-24 age category.

US Parenting Youth - There is a family consisting of two individuals: one 18-year-old and one 17-year-old. This is not a Parenting Youth household but was advised to be placed in Parenting Youth. The adult did fall into the "gender no singularly \\Female\\ or \\Male\\."

From HUD: "My take is that you are correct though I am confused why there are 2 people showing up in the 18-24 category. It sounds like you have one in the 18-24 and one in the under-18 category. I think we would take the broad approach to still count this as a "parenting youth" situation though it is far from the traditional model we see. We generally see an "adult" guardian with a youth. The system is not currently set up to treat it separately and I'm sure we couldn't make a change quick enough to fix the issue. I would recommend reporting it as parenting youth if you can't otherwise submit it."
