SALT LAKE COUNTY HOMELESSNESS DATA REPORT

A multi-year review of our community's Point-in-Time, Housing Inventory Count, and other key data.

2023 - 2026

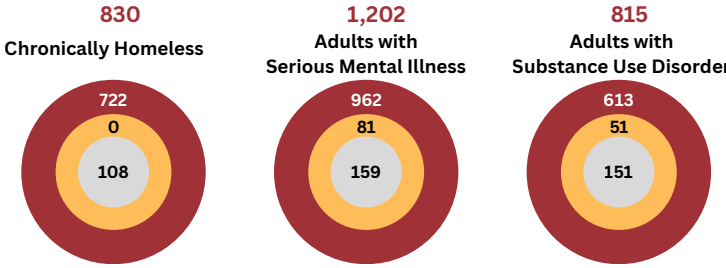

POINT-IN-TIME COUNT

Since the CoC inception in 2025, The Point-in-Time (PIT) count is conducted In partnership with the community. The survey effort provides a "snapshot" of homelessness to inform city, county, and state funding and policy. For 2026, the PIT reference date was **Jan. 28, 2026.**

Sub-population Scope: State Homeless Pillars & Leifman Related

Sub-population Scope: Growing Concerns & Economically Vulnerable

3-YEAR TREND DATA

Key Insight

In 2026, the CoC experienced a decrease in the unsheltered count to 408 individuals, the lowest total in the three-year trend data count.

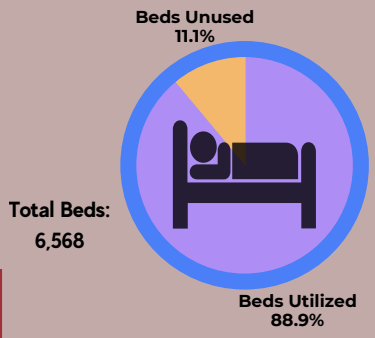

Key Note

In the same year, the jail-reported homeless population increased by 164 individuals (517 to 681). This represents a 31.7% increase, one of the largest year-over-year increase of any metric in this report.

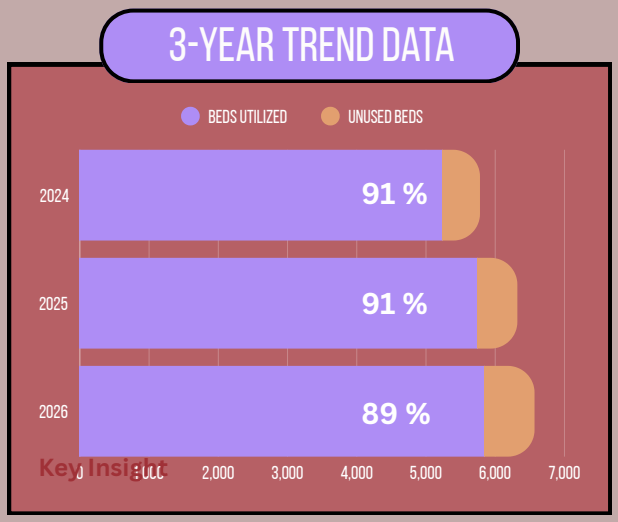

2026 OVERVIEW: HIC DATA

Housing Inventory Count (HIC) is an overall assessment of the resources available throughout a system, including bed count, utilization, and availability.

Reporting Organizations	20
Total Projects	93
Total Beds Available	6,568
Beds Utilized	5,841
Utilization Rate	89%

3-YEAR TREND DATA

Homeless Resource Center turnaways and waitlists were outside the scope of this report but represent an important area for future analysis. Examining unmet demand alongside homelessness trends can help inform community resource allocation in future reports.

13.6%

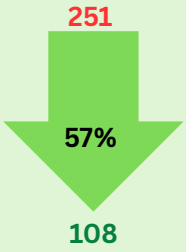

HIC bed capacity increase 2024: Reflecting continued investment in shelter and housing infrastructure.

KEY SUB-POPULATION TREND DATA 2024-2026

NOTEWORTHY SYSTEM SUCCESSES

CHRONICALLY HOMELESS TREND DATA

Unsheltered Individuals

The lowest in the three-year series.

Note: This low complements continued growth in shelter space and placements.

VETERAN TREND DATA

4
Unsheltered Veterans

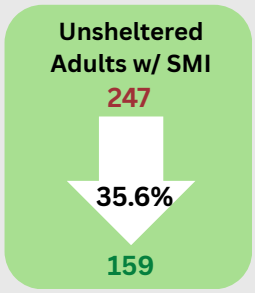

770
Veterans who have exited homelessness ince 2024

Note: These numbers are a credit to the Veteran Placement Pipeline.

STATE HOMELESSNESS PILLAR FOCUS TREND DATA

ADULTS WITH SERIOUS MENTAL ILLNESS (SMI)

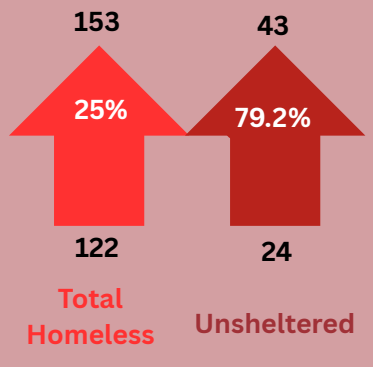

ADULTS WITH SUBSTANCE ABUSE DISORDER (SUD)

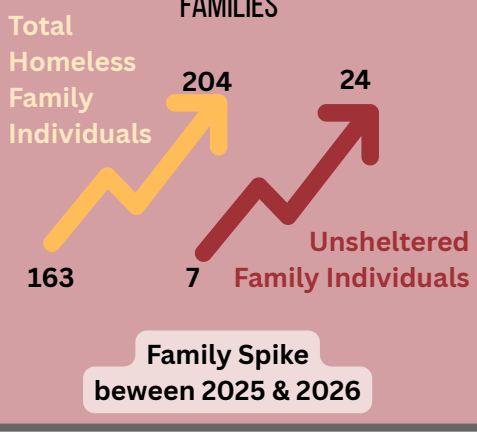

SALT LAKE VALLEY COALITION TO END HOMELESSNESS AREAS OF CONCERN

Note: Not coincidently, these sub-populations are the most vulnerable to affordability issues due to either income potential or having more than one person to support.

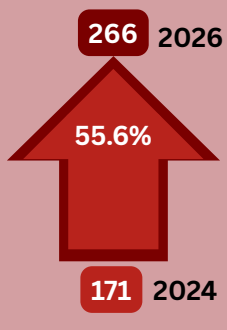

UNACCOMPANIED YOUTH (18 - 24)

FAMILIES

SENIORS (65+)
